JavaScript, TypeScript

Frontend frameworks or libraries
ReactJS, Next.js

Databases and BaaS
PostgreSQL, MySQL, Supabase, Convex

Adicional tools
Git, GitHub, Docker,
Jira, Azure DevOps
Figma, Tailwind CSS, ChakraUI
Shadcn, Stripe

📁 PROJECTS

Grayola Platform
05/2025 − 10/2025

Megapix
05/2024 − 01/2025

🌐 LANGUAGES

Spanish ●●●●●

English ●●○○○

📇 PROFILE

I'm a product-oriented **software engineer** with experience in developing and scaling digital platforms. I work on designing **full-stack** solutions that integrate modern technologies and **artificial intelligence** models. My approach combines technical expertise with strategic vision to build efficient, scalable, and **user-centered products**.
I'm driven by the goal of creating tools that deliver real value and generate impact through technology.

🎓 EDUCATION

Higher Technical Degree in Web Design & Development
Escuela Da Vinci
2023 − 2025
Full-stack training with focus on UX/UI, APIs, and modern web & mobile apps.

Professional Certification in Digital Design & Audiovisual Production
Escuela Da Vinci
2020 − 2023

Technical Degree in Programming
Universidad Tecnológica Nacional
2016 − 2019 (paused)

💼 PROFESSIONAL EXPERIENCE

NotChatBot
Full Stack Developer
10/2025 − present
I develop and maintain full-stack features using TypeScript, Next.js, Convex, and Vercel.
I've contributed to the integration of AI models and e-commerce solutions, helping optimize performance and enhance the user experience.

Grayola LLC
Tech Lead
05/2025 − 10/2025
Responsible for developing a B2B DaaS platform, including full-stack architecture, authentication, project management, and subscription-based payments using Next.js, Supabase, Stripe, and Shadcn UI.

Alkimiaz
Full Stack Developer
05/2024 − 05/2025
I developed and maintained front-end features using Next.js, React Query, and Tailwind, collaborating with design and backend teams to improve performance and enhance the user experience.

Novocap S.A.
System Analyst Ssr.
07/2017 − 05/2024
I managed SAP S/4 HANA, service requests, and IT onboarding.
I administered Active Directory, Office 365, and SharePoint, and led the implementation of Microsoft Teams and Intune.
